VOLUME XXXIX NO. 99

SEYMOUR, INDIANA, SATURDAY, APRIL 24, 1920.

PRICE TWO CENTS.

CAMPAIGN IN CITY TO START SUNDAY

Twenty-Workers to Solicit Pledges Among Non-Church Members for Inter-church Fund.

SEYMOUR'S QUOTA IS \$5,500

Drive Will Begin Tomorrow Afternoon Following Conference of Captains and Workers.

The campaign for funds among non church members for the Inter-church World Movement will be started tomorrow afternoon, according to an announcement today by L. C. Griffiths, city director. The city has a quota of approximately \$5,500. It is expected that the drive will be completed in one week's time.

The residents of Seymour who are not members of any church and who are not classified as constituents of any religious denomination are placed in Class B for the purposes of this drive. The committee in charge of the Class B or "friendly citizens" campaign have prepared a list of one hundred names. These names have been divided among the seven city captains and their workers and will be asked to pledge such sums as they desire for the Inter-church World Movement. Similar campaigns have been or will be conducted among the church members.

The "friendly citizens" organization held a luncheon at the First Methodist church at noon yesterday at which time plans were perfected for the week's drive. Mr. Griffiths was chosen city director and Charles A. Hemmer was elected treasurer. Funds collected by the captains and workers and the pledges filed by "friendly citizens" will be turned over to Mr. Hemmer who will make settlement with the national organization. The money received from Class B will later be apportioned among the various denominations participating in the campaign according to the amount of cash the members have paid in.

The Inter-church World movement is one of the most extensive and far-reaching campaigns ever undertaken by religious denominations as a unified endeavor. The campaigns in the Baptist church and other denominations which have not yet made their drives will be started tomorrow.

Churches which have already raised funds for the Inter-church world movement have been given an additional quota to be raised from new members and from churches which failed to respond when the drive was waged.

STOLEN CAPE IS IN CUSTODY OF POLICE

John Brownfield in Jail at Bloomington on a Petit Larceny Charge—Formerly Lived Here.

J. T. Abell, chief of police, and Officer Charles Wallace this morning recovered a package containing a cape and some other articles which were received by mail by Mrs. Anna Brownfield, West Laurel street, from John Brownfield, who is now in jail at Bloomington facing a petit larceny charge. The local police received a call from the Bloomington police Friday night instructing them to watch for a package mailed to Mrs. Brownfield that would be delivered this morning. The local officers watched the mail carriers deliver the package to the Brownfield home this morning and then went in and recovered it. It is being held at the police station pending instructions from Bloomington. Particulars of the case against Brownfield have not been learned here.

The case of William Hunsucker vs. Homer Taskey, for possession of property, was decided today in Justice John Congdon's court in favor of the plaintiff. The court ordered the defendant to vacate the property at once. Taskey did not appear for trial and the case was heard in his absence. S. A. Barnes represented the plaintiff.

DEPARTMENT WILL BE MOVED HERE

R. L. Galleher, Division Freight Agent of Baltimore & Ohio, To Come To Seymour May 1.

CHANGES WILL BE MADE

Accounting Department Will Be Moved to Third Floor of the Division Office Building.

A. A. Iams, superintendent of the Indiana Division of the Baltimore & Ohio Railroad Company, announced today that the division freight office, which for several years has been located at Cincinnati, would be moved to this city. R. L. Galleher, division freight agent, and his force of assistants will move their office to the Indiana division office building in this city May 1.

The new department will occupy the assembly room for a short time until the third floor at the office building is remodeled and equipped for the accounting department which now occupies the office rooms on the lower floor. The accounting office will be moved to the third floor as soon as possible and the division freight agent will move his headquarters to the rooms now occupied by that department. For several years the third floor of the office building has been used as an annex to the New Lynn hotel.

The proposition of moving the division freight office to this city has been under consideration for some time. When the Baltimore & Ohio railroad company was re-organized after the railroad was returned to private ownership it was decided that the division freight office be located near the division superintendent's office. For several years the Indiana division freight office was located at Cincinnati and some of the work of the division was taken care of at the Illinois division office at Vincennes which has recently been moved to Flora, Ill. The division freight office, to be located here will have charge of the freight business between Washington and Cincinnati and on the branch between North Vernon and Louisville.

The moving of the division freight agent's office to this city will be an advantage to local business men. Instead of taking in claims for lost freight shipments and other business matters with that department they may go to the office instead of writing letters which cause considerable delay in disposing of claims.

MUNCIE STUDENT WINNER IN DISCUSSION CONTEST

Sheridan Youth Takes Second Place and Shortridge Boy Third in Bloomington Contest.

Thurston Harshman, representing the Muncie High School, was awarded first honors in the Indiana High School Oratorical contest which was held at Bloomington Friday afternoon and night. Dolve Mullen, of Sheridan, was given second place and John Ferris, a student of Shortridge High School, Indianapolis, took third place.

There were eleven contestants, one from each of the congressional districts in the state. The district representatives met in a elimination contest Friday afternoon and six were selected to compete for honors at the night session. Frank Miller, of this city, who represented the Fourth congressional district, was not among the night speakers.

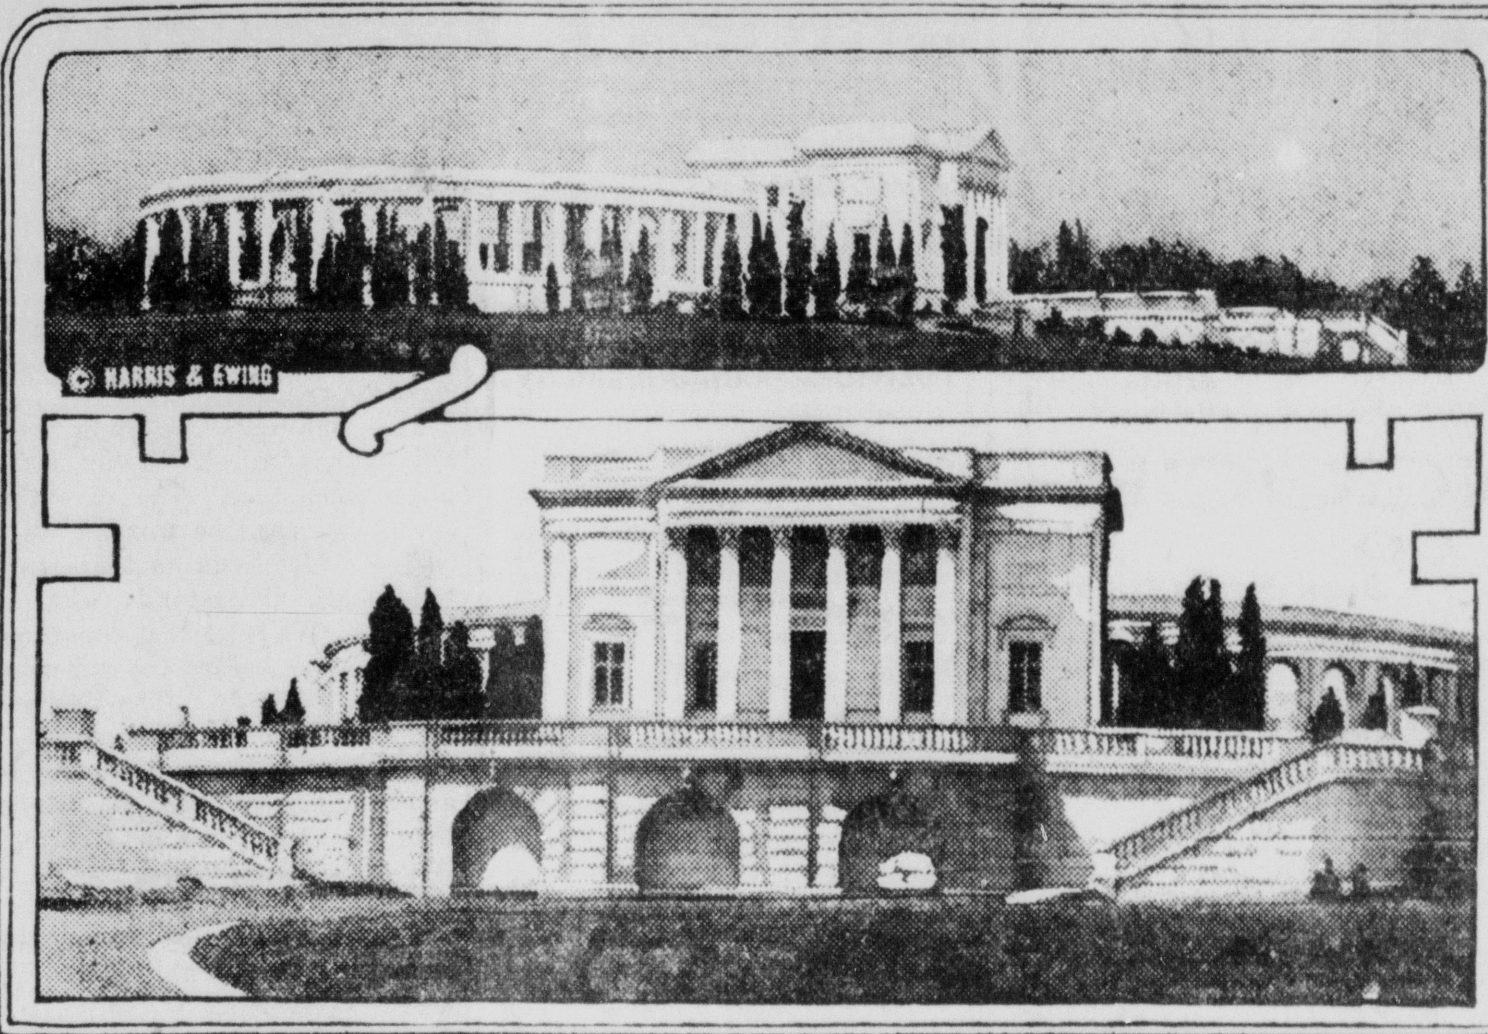

SMALL DAMAGE BY FIRE

Spark From Chimney Sets Fire to House on Second Street.

The fire department was called to the home of Frank Gates, on East Second street this morning about 9:30 to extinguish a blaze which started on the house roof. The firemen succeeded in putting the fire out before much damage was done. A spark from the chimney falling on the house roof started the blaze.

MOST VOTERS WERE OF SAME OPINION

Overwhelming Opposition Registered in Election Against Proposed New Sewerage System.

484 AGAINST AND 85 FOR IT

Tabulation Shows That Only About One-third of the Total Vote of the City Was Cast.

The tabulation of the votes cast in Friday's special election which was called for the purpose of ascertaining public sentiment relative to the construction of a new sewerage system shows that those who cast ballots were almost unanimously opposed to the proposed improvement. A total of 569 votes were cast and of this number 484 were against the improvement and eighty-five were for it.

The vote in the two precincts follows:

North Precinct—For improvement, 41; against, 247. Total vote, 288.

South Precinct—For improvement, 44; against, 237. Total vote, 281. Approximately one-third of the total vote of the city was cast in the election. While the number of citizens participating in the election was very small, the overwhelming decision reveals the sentiment of the people and that was what the council desired to know when it ordered the election.

Those who are interested in sewerage construction declare that the election Friday decided nothing. It is known that many people who have complained about the present inadequate system and who have strongly contended that an improvement ought to be made voted "no" when they cast their ballots. It was expected that the recent heavy rains and the resultant trouble which followed would cause many people to

FORMER PREMIER OF FRANCE IS LIBERATED

Joseph Caillaux May Not Live in Paris or Any Other Large French City.

Paris, April 24.—Joseph Caillaux, former premier of France, convicted of holding communication with the enemy, was released today.

Caillaux was released following a lecture by senate officials who warned him that under the order of liberation he could not live in Paris or any of the big French cities. He motored to his residence in Paris from where he will leave soon for the country.

While the former premier was sentenced to three years imprisonment, the time he was in solitary confinement was credited as off-setting the sentence.

FLOOD DAMAGE IN COUNTY IS HEAVY

Many Roads Left in Bad Condition as Result of Swift Current in the High Water.

REPAIR EXPENSE IS LARGE

City Streets Also Damaged by the Overflow of Sewers—Difficulty in Finding Labor.

Damage which resulted to roads and fields during the flood this week is revealed as the high waters recede the rivers and creeks again approach their normal size. Estimates of the loss reach a high figure, considerably more than was anticipated earlier in the week. It will be a week or more before the state highway commission and the county commissioners will be able to ascertain accurately just what the road damage alone will total.

In some places creeks rose rapidly and the water receded quickly and little damage resulted to inundated roads and fields. However, some highways were under water several days and the current was so swift that the metal was carried away and the surfaces are filled with holes and ruts. A few bridges were swept away or were weakened by the flood water.

Many fields in the county were damaged by the flood. Some of these were seeded to oats and wheat and the crops will be almost a total failure. Other fields along White River were covered with water and were badly damaged as the current swept over the soil. The total loss to wheat and oats crops will be great, but there is no practical way to ascertain just what the damage will be.

The city of Seymour did not escape damage. When the sewerage system was over-taxed Tuesday

41 ARE ARRAIGNED IN FEDERAL COURT

Charges of Conspiring to Restrain Transportation Filed Against Chicago Strikers.

HEARING IS SET FOR MAY 5

Justice Department to Act At Cleveland Unless Switchmen Return to Work.

By United Press.

Chicago, April 24.—Forty-one defendant outlaw strike leaders were arraigned in federal court here today on charges of violating the Lever law. Their cases were set for hearing May 5. The specific charge against the strikers was that they induced switchmen to remain away from work whereby conspiring to restrain transportation of the necessities of life.

The unauthorized strike of railroad switchmen continued in the Chicago district today following a second unsuccessful attempt to declare it ended.

John Grunau, leader of the strikers failed to present the expected motion for termination of the strike at yesterday's mass meeting. Railroads today continued to report improvement in service throughout the middle west.

Leaders of the railroad strike at Cleveland will be arrested today unless the strikers return to work at once, John F. Sawken, department of justice agent announced today.

"The government is not bluffing" he said when apprised that the mass meeting of strikers had howled down the suggestion to return to work. "Warrants will be served this afternoon."

GERMANY'S REQUEST FOR AN ARMY OF 200,000 REFUSED

News Agency Says Decision Was Reached at Informal Conference of Premiers.

By United Press.

Paris, April 24.—The conference of allied premiers has decided to reject Germany's request that she be allowed to retain an army of 200,000 instead of the 100,000 provided by the treaty of Versailles, a news agency dispatch from San Remo said today.

The decision was made in an informal conversation this morning, the dispatch said. It was pointed out that while Marshal Foch permitted 200,000 when the treaty was established his idea was that the German army would be composed of volunteers from the national guard. The allies, it was stated, unanimously recognized it was dangerous to permit Germany to have a professional army of this size.

FUEL SHORTAGE AT DETROIT.

Local and Interurban Service May Be Discontinued.

By United Press.

Detroit, April 24.—Local and interurban service of the Detroit United Railway will be discontinued within a few days unless there is relief from the present fuel shortage the company announced today. In the meantime the general industrial situation here appeared more encouraging, according to officials of the Detroit Edison Company.

ELECTION RESULT.

Seymour yesterday went through the form of an election ostensibly for the purpose of ascertaining the sentiment of the majority of the voters relative to the proposed construction of a new sewerage system. The vote was overwhelmingly against the improvement, but the decision is paradoxical in that the negative vote cannot be taken as an indication that the majority of the people in this city are not in favor of an adequate sewerage system. The vote yesterday is regarded as a protest against the method which was followed in presenting the question. The election has been held but it has decided nothing.

The people of Seymour are not unusual or unique when they ask full details about an improvement estimated to cost two or three hundred thousand dollars on which they are required to vote "yes" or "no." The trouble with the election yesterday was that the question was presented in a confused form. The council is not to be criticized for its action. It had good grounds for the

course which it pursued. But the fact remains that there was a misunderstanding. In spite of the explanations made through the press and at meetings at the Chamber of Commerce many people did not know exactly what was to be decided.

The plan of having a preliminary survey of the present system made and specifications prepared for the proposed new system was confusing. The Chamber of Commerce had good argument for the course which it desired followed. It was unfortunate that a complete understanding could not have been reached before the election was ordered.

The sewerage question in this city is not ended. Relief must be given some time. The plan that is acceptable, must be worked out on a business like basis so that everyone thoroughly understands what is to be done. We must first construct the ground work before the super-structure is started. The preliminary steps will not be expensive. The main thing to be remembered in an undertaking of this magnitude is that the beginning must be right. With the slate wiped clean the council, the Chamber of Commerce and other organizations should prepare now to plan for the future. And whatever is done there must be a complete understanding as to what is being attempted.

LOIS WILSON AND AN ALL-STAR CAST

Andrew Robson, Yukio Aoyama, and Others Are Seen in "Who's Your Servant?"

There is an all-star cast in "Who's Your Servant?" which is showing Monday at the Majestic Theatre for an engagement of one day. The central character, that of the daughter of Rear Admiral Baneroff, commandant at a United States Navy Yard, is played by Lois Wilson, an appealing young screen star.

The part of her father is taken by Andrew Robson, one of the best character actors. A sinister and villainous role is taken by Yukio Aoyama, who has the part of a scheming and dishonest house servant.

Others in support are Albert Morrison, William Scott and Frances Burnham, in the parts, respectively of a commander in the navy, a lieutenant, and a pretty widow, about the post. The picture is based upon a play by Julian Johnson, which was seen at the Princess Theatre, New York, where it had a long run.

Win the Election with Custer

CLARENCE E. CUSTER

The FIRST Candidate in the race for Congress.

The First Candidate to tell YOU frankly where he stands in this race, and to ask YOUR support.

Custer believes in you.

Custer feels that YOU believe in his sincerity.

Custer is running on his merits, his ability and fitness for the office, and not because some one else is NOT a candidate.

There is no secret, gum-shoe organization connected with Custer's campaign. You will not find the Custer men quietly putting out the word that any particular candidate should be defeated or nominated.

Custer's method in politics is to take the PEOPLE into his confidence.

Custer believes in a Rule of the People, and that YOU should determine the nomination.

Custer believes that this office belongs to YOU, the 25,000 Democrats of this district, and YOU are going to bestow it.

Before you vote, ask yourself this question:

Which of the Five Candidates Best Represents Me?

One candidate is a furniture salesman, One candidate is a Physician, and Two Candidates are Lawyers.

Clarence E. Custer, of Bartholomew County, is the only candidate who is a Farmer.

Custer is a member of The Indiana Federation of Farmers' Associations, of which there are 60,000 members. He has been active in the Association and he stands for fair markets and proper protection for our crops and for our Farmers.

Custer is the only candidate with farming interests.

Custer does not apologize for being a Farmer.

Custer does not appeal to you for your vote because he was born on a farm.

Custer appeals to you for your vote because he is a Farmer TODAY, because he meets your problems daily, and because he knows the present day needs of the farmer.

MOST VOTERS WERE OF SAME OPINION

(Continued from first page)

vote for a new sewerage system, but
some residents who have been pump-
ing water from their basements dur-
ing the week voted against the im-
provement.

The result is taken to mean that
the people did not feel that they had
been sufficiently advised and infor-
med as to the nature of the proposed
improvement to vote intelligently.
There has been a growing feeling
during the last two weeks that defi-
nite figures as to the cost should be
presented before the voters were
asked to favor a large assessment
upon their property. It is not known
whether the present outlet to the
river is adequate or if any part of
the present system can be retained
when the proposed new system is
constructed. Many citizens did not
vote but their action was not due
to lack of interest but rather to lack
of detailed information as to what
they were expected to vote for.

During the last few days many
questions have arisen which con-
fused the main issue. Few of these
were cleared away. One question
gave rise to another with the result
that the voters did not feel that they
were able to vote the way they de-
sired.

There is increasing belief, it is
pointed out, that a survey of the
present system should be made re-
gardless of any extensive improve-
ments in the sewerage system. It is
said that a depth and sizes of the
sewers and laterals have been com-
piled in plat form in years gone by,
but none of this data is now avail-
able. When a property owner peti-
tions the council for the privilege of
tapping a sewer he does not know
whether the sewer is lower than his
basement or if the drain will afford
him the relief he anticipates. A
plat of the present system would
furnish such detailed information
and would save needless expense. It
would also show the location of lat-

erals and would avoid the necessity
of the street force searching for
drains when they become obstructed
and congested.

The matter of having a plat with
plans and specifications prepared for
a new system is a mooted ques-
tion. The council took the view that
this would be a needless expenditure
of money unless the people first de-
cided if they wanted to expend sev-
eral hundred thousand dollars for a
new system. Those favoring the
preparation of such plans and speci-
fications point out that they could
be used advantageously in the con-
struction of extensions as they could
be laid to conform to the permanent
system.

Such plans, it is pointed out, would
be on file and any ward or section
of the city would construct local
drains or laterals at any time. The
plans would be uniform for the en-
tire city. The cost would be assess-
ed against the property benefited the
same as if the entire system were
built at the same time.

Another question has arisen as to
whether the city could find a market
for the bonds that would be neces-
sary to construct the entire system
at one time and if the issue that
would be required could be legally
floated. The city has a bonded in-
debtedness limit and if the proposed
system costs anything like the esti-
mated amount it would be impossible
to float the bonds.

The Chamber of Commerce and
the citizens have not dropped the
sewerage question. Public sentiment
is strongly in favor of relief, despite
the result of the election Friday.
However, there is a strong desire
that the next steps be taken in a
different way, that the matter be
placed on a more substantial basis
and that full information be given
the public so that the confusion
which bemuddled the situation Fri-
day may be avoided in the future.

Druggist of Covington, Ky., Who Has Made
Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a
disease not to be taken seriously
are harshly rebuked by a Ken-
tucky druggist who has for years
been much interested in the
growth of this loathsome, yet al-
together too common disease.

He claims that the sore, tender,
inflamed membrane of the nos-
trils and throat is a prolific
breeding ground for germs—not
only the germs of influenza, but
many other kinds as well.

If people would only stop ex-
perimenting for two weeks and
try a simple remedy made of
Mentholized Arcine mixed with
enough boiled water to make a
full pint, half of the catarrh in
this country would be abolished.

It's really no joke for people

who don't know about this simple
recipe to be constantly sniffing
and snuffling, blowing and hawk-
ing, when all these obnoxious
symptoms as well as the foul dis-
charge can be made to disappear
in a few days.

Ask for three-quarters of an
ounce of Mentholized Arcine—
that's all you need and after you
have mixed it with enough boiled
water to make a pint, gargle the
throat twice daily and snuff or
spray some up the nostrils, as di-
rected.

The tender nostrils will soon
lose their soreness, heal up, and be
clean and healthy.

Important Reminder: Just as
soon as anyone in the family gets
a cold in the head, check it at once
with this same medicine.

SEYMOUR NINE LOSES TO COLUMBUS TEAM, 11-9

Local Team Makes Fine Showing
in First Game of Sea-
son's Schedule.

The Seymour high school baseball
team dropped its opening game to
the Columbus high school nine, 11-
9, on the Maple Grove school dia-
monds at the Bartholomew county
seat Friday afternoon. A return
game is scheduled for a local field
next Friday afternoon.

The S. H. S. nine made a good
start the first inning, scoring two
runs while Columbus made no runs.
The second and third innings re-
versed the scoring, the Columbus
team making two runs in each ses-
sion while the locals were blanked.
Each side scored two runs in the
fourth. Three men crossed the home
plate for S. H. S. in the fifth and
an equal number for Columbus the
sixth inning, giving the latter a 9-7
lead. Wilson left the box and
Parker took up the work on the
mound for the remaining innings.
Columbus put in two runs the sev-
enth while the locals scored one in
each of the eighth and ninth innings.

Features of the game were a
home run by Fately and two three-
base hits by Mercer. Smith, colored
pitcher of the Columbus nine,
worked in good form the entire game.
Both teams showed lack of practice
and a much better game is expected
when the two teams meet on the
local diamond next week.

Lineups:
Columbus: Anderson, 3b; George, 1b; Rhodes, rf; Fately, 2b; Lucas, ss; Cole, c; Sims, lf; Tilton, cf; Smith, p.
Seymour: Baldwin, cf; Lewis, c; Parker, 3b-p; Braskett, ss; Cadon, 1b; Nicholas, 2b; Wilson, p-3b; Mercer, lf; Combs, rf; Glasson.

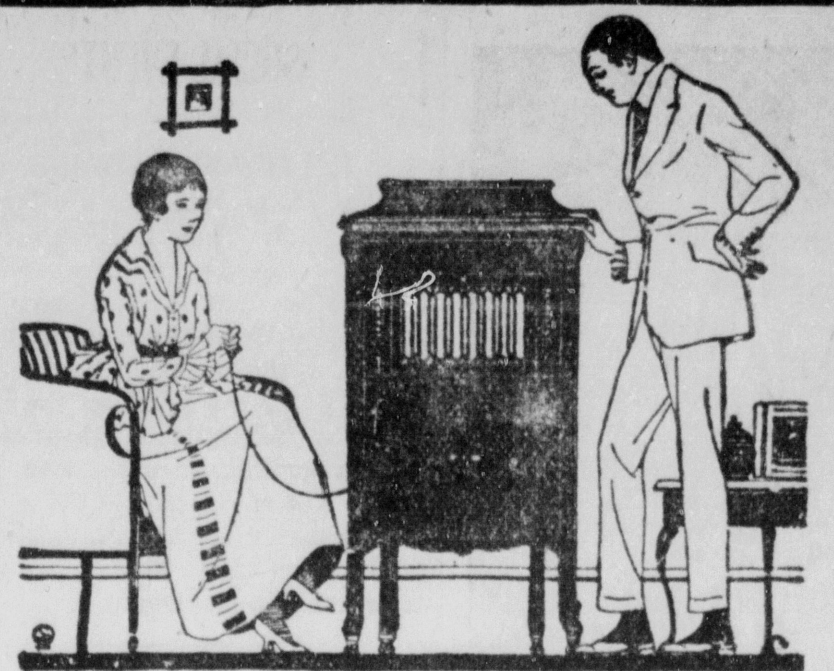

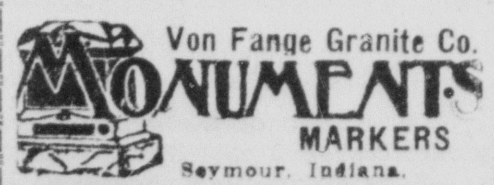

*For Braskett in the eighth,
Hom, runs—Fately.
Three base hits—Mercer 2.
Two-base hits—Smith, Cadon.
Hit by pitcher—Wilson, 2.
Strike outs—Smith 10, Wilson 9,
Parker 4.

Hits—off Smith, 8 and 9 runs in
nine innings; off Wilson, 9 and 9
runs in six innings; off Parker, 4
and 2 runs in two innings.

Score by innings:
Seymour 2 0 0 2 3 0 1 1—9
Columbus 0 2 2 0 3 2 0—11
Batteries—Wilson, Parker and
Lewis; Smith and Cole.
Umpire—Barnaby, Columbus.

Mrs. Thomas Plunkett and Mrs.
John Plunkett, Columbus, were
guests of the former's daughter,
Mrs. Clarence Brown, Friday.

Mrs. Clyde Wildman is spending
the week end in Greensburg.

PROBLEM IN DOUBLE WEDDING

After a double wedding in Brooklyn, N. Y., these four persons are trying to determine their relationship to one another. Papa Westlake married Maria Clara Henrietta Chattaway, while their children, Clara M. Westlake and Harold Chattaway, not to be outdone, accompanied them to the altar. Both couples started on their honeymoons together.

NEWSY PARAGRAPHS

Harold Kelly, of Mitchell, a Republican candidate for the nomination for prosecuting attorney of the Jackson-Lawrence judicial circuit, was here today in the interest of his candidacy.

The condition of Charles Sauters, well known resident, who has been seriously ill for several weeks, was critical today. He suffered a sinking spell during the night, but appeared to be a little stronger today.

James Gerrish, son of Dr. W. E. Gerrish, a former resident of this city, is the guest of his aunt, Mrs. Violet Gerrish, North Walnut street. Mr. Gerrish was educated in the local schools, but moved to San Francisco seventeen years ago and this is his first visit to his old home since he went west. He will leave for the coast tomorrow.

INSISTS UPON PROTECTION OF AMERICANS IN MEXICO

Secretary Daniels Says Two Ships Have Been Ordered to Mexican Waters.

By United Press.

Washington, April 24—General Alvarado, representative here of the Obregon revolution, today telegraphed Governor Huerta of Sonora that immediate steps should be taken to afford protection to Americans and other foreigners on the west coast of Mexico. Secretary Daniels said today that instructions to two American boats ordered to Mexican waters were to "observe and report."

Fighting is in progress between General Gomez, commanding a brigade of revolutionary forces in Northern Vera Cruz, and the Carranza commander in the oil district for possession of the Tampico petroleum field, according to a statement issued by General Alvarado. All available recruits are being rushed from the neighboring states to the Carranza forces who are reported to be in a dangerous situation, Alvarado said.

Inter-Church Campaign.

By United Press.

Indianapolis, April 24—The Inter-church World movement with a \$4,000,000 goal was launched throughout Indiana today. The campaign will continue one week. Speakers of national prominence are expected to tour the state in the interests of the campaign.

Frank J. Resler, united financial campaign director will have charge of the campaign.

Rev. F. A. Hayward returned this morning from the copper country in Upper Michigan where together with Federal District Attorney Myron W. Walker of Grand Rapids the prosecuting attorney in notorious Iron Mountain liquor cases and Dr. C. M. Carter of Detroit he addressed the First Baptist Church of Marquette, Michigan on "The New World Movement." The meeting was under the auspices of the Business Men's Club and was in the interest of the church quota.

Motorists have told us that Horse-Shoe Cord Tires are so effectively non-skid that they hold the rear wheels fast on slippery pavements even when the plain-tread front tires are inclined to skid.

They say that they used these tires all last winter without tire chains, and that they turned corners at 20 miles an hour on wet pavements without skidding.

We shall be glad to show you how unusually non-skid the Horse-Shoe Cord Tire really is. Come in and ask for a demonstration.

Dedicate Salvation Hall in Tokyo

MARQUIS SHIGENOBU OKUMA, famous Elder Statesman of Japan, was one of the distinguished guests of the Salvation Army at the recent dedication of the Salvationists' new headquarters in Tokyo. The Marquis appears at the extreme left above. Next him are Commissioner and Mrs. Johannes de Groot, in charge of the work in all of Japan, one of the sixty-three countries and colonies in which the Army is laboring. "The reason I always willingly render any service I can to the Salvation Army," stated the Marquis in the course of his address, "is because the organization does not sit down and content itself with past achievements, but continues to keep up a strenuous fight for further advancement in the future."

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

SEA SCOUTS DO GOOD TURNS

Sea scouts, as well as their land brothers, thoroughly believe in the good turn daily; and examples in work peculiar to the water are not uncommon. When breaking camp at Larchmont, N. Y., the "Curlew" expedition wanted to show their appreciation of the courtesy of the Larchmont Yacht club, so all hands tumbled up unusually early and gave the broad piazzas a cleaning that made the old caretaker say: "Well, now, I ain't seen that done so well for years!"

Wilkesburg, Pa., sea scouts of the schooner "Pennsylvania" are planning to maintain a "beach patrol" of the summer resort beaches during the coming summer. Sea scouts will constantly be on patrol to see that no drownings occur off their strip of beach and to act as instructors in swimming and watermanship.

The B. S. A. sloop "Essex" of South Orange, N. J., sent details of sea scouts to New York city to help the National Marine league in its exhibit at the Grand Central palace.

Sea scouts of Philadelphia, Pa., noticed the soldiers playing indoor quoits with rope rings joined together with wooden bands. "We can do better than that," quoth the sea scouts, and promptly made up a large number of smooth rope grommets, which made a much better ring than the purchased article.

THE BOY SCOUT'S BUSY LIFE.

Bushkill, Pa., Scout Troop No. 1, keeps the churchyard clean, removing dead leaves and trees.

Washington, D. C., Scout Troop No. 2, found two lost boys after a long search in the woods.

Boy scouts of Black river, Jefferson county, New York, succeeded in carrying practically everything from the first floor of a burning house. The fire had gained such headway that they were unable to save the goods on the second floor.

The second district of the Boston scout council has a radio communication unit for scouts over 15 years of age.

Henry Mier of Ionia, Mich., a boy scout, proved the benefit of his scout training at a fire. At the alarm of fire he rushed out and in keeping with the code of the organization began immediately looking for something to do. His efforts were directed toward the high board fence that separated the substation of the electric lights from the burning buildings and he kept water on it all the time by making good use of a bucket.

SCOUT COURT ENDS QUARREL

Scouts Philip Grzywa, 12 years old, and Ray Moon, 14, living next door to Philip, in Omaha, Neb., had a quarrel and each vowed to "get even" at the first opportunity.

The quarrel developed into a fight in which one of the boys was pretty badly hurt before friends separated them.

"No good scout will hold a grudge against another," said Patrol Leader Roy Fredlund, 14 years old.

With the formality of a regular court of justice a Boy Scout court was called.

Following the hearing, which lasted an hour, the "jury" reported a "verdict" as follows:

"We find that both boys are to blame for the trouble.

"Each is sentenced to do the other two good turns every week for four weeks.

"The boy who quits the troop because of the trouble, or who fails to do the good turns, will be considered the most guilty."

The verdict read, Philip and Ray sprang from their seats and shook hands, agreeing to forget their past differences and be "pals" again. They left the meeting arm in arm amidst the cheering of their fellow scout members.

URGES SCOUTS TO BE AVIATORS.

The boy scouts of New England are urged to take instruction in flying by Col. L. H. Drenan, air service officer at army headquarters, who, in speaking of the boy scouts and their future work, points to the necessity of a mechanical training as one of their strongest assets.

"I have been asked to speak before the boy scouts, and, in every instance, I have urged upon them the necessity of knowing machines, especially the airplane," said the colonel.

"While these boys may never fly, they should get acquainted with the mechanism of these machines."

JAPAN IS READY TO TAKE STAND FOR NEW ORDER

MILLIONS FOR NEW SCHOOLS.

Baptists to Spend Huge Sum to Give Christian Training to Young Men and Women of Japan.

Religious leaders in America are watching with interest the struggle going on in Japan between the military and the progressive parties, according to Dr. J. H. Scott, of the American Baptist Foreign Mission Society who is preparing to return to Japan after a year's furlough. For twenty-seven years Dr. Scott has been in the Flowery Kingdom and it is partly on his recommendation that the Baptists have decided to spend a million and a half dollars there between now and April 1924.

Over \$200,000 will be invested in the Mable Memorial School at Yokohama, while \$400,000 will go to the Christian college at the same place. Practically every dollar of the appropriation for Japan will be used for educational purposes except \$90,000 set apart for fifteen church buildings.

In the present cabinet, largely made up of progressives, Dr. Scott sees the final overthrow of autocracy and militarism. Old policies are giving way in the face of the modern ideas of the young men and women of Japan, many of whom are Christians, educated in the Christian colleges that have sprung up in Japan within the last fifty years, he says.

"We owe to this progressive anti-militaristic party our strongest moral support, and every assistance to the mission effort in Japan will be a direct contribution to the cause of peace and hasten the coming of the day when the military spirit and the autocratic policy will be no more," said Dr. Scott.

"Japan will lead the Far East in commerce, industry and invention as well as in education and art," he added, "but there is a still greater mission for Japan and that is as a leader in the principles of truth, liberty and righteousness. Not many years ago she was in the grip of a despotic feudal system. She had a cruel caste system under which the man of lower caste had no more rights than a dog. That has been done away with. Her people once had no religious rights and her women once were mere chattels. Wonderful reforms have been accomplished but none more pronounced than the granting of religious freedom to the people and the recognition of women as equals with men."

According to Dr. Scott, Japan has been unable to build schools fast enough. Ninety-seven per cent of the children of school age are being educated. Industrial schools have opened and yearly turn out hundreds of graduates. In Osaka more than 2,000 girls were graduated last year.

BAPTIST CHAPEL CARS MAKE GOOD

Unique Method of Preaching Gospel Shows Excellent Results. More to Be Constructed.

As a part of the New World Movement of Northern Baptists, for which \$100,000,000 is to be raised in an intensive campaign from April 25 to May 2, several new chapel cars will be added to the seven which the denomination has already on the road.

These chapel cars are just what the name implies, regular railroad cars with a chapel on each one and living quarters for the missionary and his wife. They are switched about by the railroads, stopping in various towns where there is no Baptist church and frequently in smaller towns that are entirely churchless. Services are held in them, both at the stops and en route, and persons are reached who might otherwise have had no opportunity of hearing the gospel.

By their ministry 218 churches and 358 Sunday schools have been established, 179 meeting houses built, 272 pastors settled, 24,919 conversions reported, with 8,530 additions to the churches brought about otherwise than by baptism and 18,727 Scriptures distributed.

The Evangel, as one of the cars is called, in the 60 months that it has been on the road, reports 2,188 sermons preached, 3,993 families visited, 2,975 copies of the Scriptures distributed, 892 conversions, 596 baptisms, 490 additions to churches otherwise than by baptism, 5 church buildings erected and 19 pastors settled.

Doing the Will of God.

The end of life is to do the will of God, whatever that may be; if we could have no ambition past the will of God, our lives would be successful, for the maximum achievement of any man's life, after it is all over, is to have done the will of God.—Professor Drummond.

GORKY CONDEMNS BOLSHEVIK RULE

Finds Leaders Have "Experimented on Human Beings."

BAPTISTS RAISE A BARRIER.

Plan Educational Extension as One Remedy—Also Would Draw Families Closer Together.

Revelation of the failure of the Bolshevik movement to produce the power to lift up the downtrodden of Russia is made by no less a Russian than Maxim Gorky. In an article published at Helsinki, Finland, Gorky is quoted as saying:

"The revolution has not been followed by any spiritual revival, and has proved itself unable to make men more honest. Men now in power are just as brutal as those in authority under the imperial regime, and send as many men to prison.

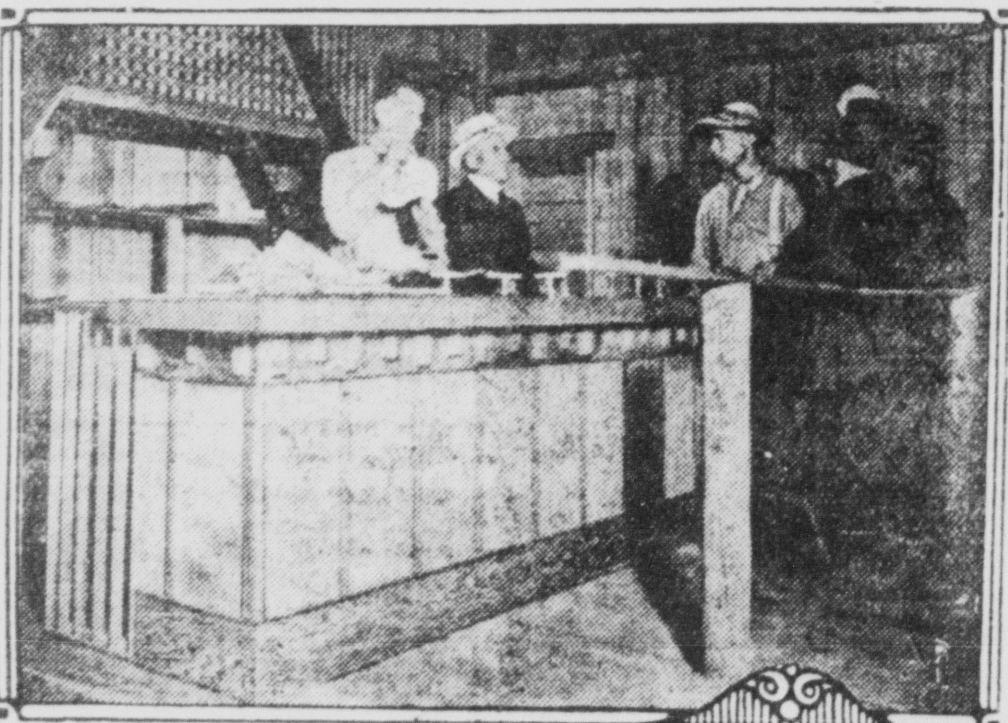

Bolshevik leaders, driven by ambition, are performing experiments on human beings.

It is in the belief that Christianity is the greatest barrier that can be raised against the growth of such a spirit in the United States that the New World Movement of Northern Baptists has organized 10,000 churches to raise \$100,000,000 between April 25 and May 2.

Declaring for a "vigorous application of Christianity to problems of world unrest," the Northern Baptists are to extend educational work, spread their Americanization of the foreign born to a greater degree, work among Indian tribes and the negro race more than ever before, develop many more community centers in the cities, occupy vast areas that now have no church, and expand their work in the foreign fields.

While applying these measures, ef-

Buttermilk Replaces Brew; Lumber Men Now Gather in Huts Of Northern Baptist Denomination

Baptist "Bar"—Mission Hut, Powers, Ore.

"What'll it be, boys?" is still a popular query in this Baptist Mission Hut in the Oregon timber lands. And the husky lumberman quaffs his fresh buttermilk, or his hot chocolate with undiminished relish. The bar is still running full force and is one of the many features that the Westerner likes about the "hut." He can get anything there from Bibles to buttermilk—movies to missionary tracts—and above all, he gets what is rare in that lonely country—human companionship.

The establishment of more such Mission Huts is part of the Northern Baptist New World Movement program for which a \$100,000,000 budget will be sought during the week of April 25 to May 2.

forts are being made to knit the social fabric more closely by bringing the family closer together as a unit. In the churches this takes the form of organization of groups of several families in each group. The observance of "family Sunday" every few weeks is another factor in this movement.

The need for such improvement of family life has awakened civic authorities, too, and several states have "home bureaus." That of Illinois, for instance, states its purpose "to develop every home into an institution which is economically sound, mechanically

convenient, physically healthful, morally wholesome, mentally stimulating, socially responsible and a center of unselfish love."

And both church and civic leaders agree that with such a development, much is done to lessen the peril to the nation from radicalism.

The Boy Scouts of the First Baptist Church will meet Monday night at 7 p. m. at the church chapel. All scouts urged to come.

The VALLEY of the GIANTS

By PETER B. KYNE

Author of "Cappy Ricks"

John Cardigan straightened up in his chair and laid the tip of his right index finger in the center of the palm of his left hand. "Here was the situation, Bryce: The center of my palm represents Sequoia; the ends of my fingers represent the San Hedrin timber twenty miles south. Now, if the railroad built from the south, you would win. But if it built from Grant's Pass, Oregon, on the north from the base of my hand, the terminus of the line would be Sequoia, twenty miles from your timber in the San Hedrin watershed!"

Bryce nodded. "In which event," he replied, "we would be in much the same position with our San Hedrin timber as Colonel Pennington is with his Squaw creek timber. We would have the comforting knowledge that we owned it and paid taxes on it but couldn't do a darned thing with it!"

"Right you are! The thing to do, then, as I viewed the situation, Bryce, was to acquire a hold of timber north of Sequoia and be prepared for either eventuality. And this I did."

Silence again descended upon them; and Bryce, gazing into the open fireplace, recalled an event in that period of his father's activities: Old Bill Henderson had come up to their house to dinner one night, and quite suddenly, in the midst of his soup, the old fox had glared across at his host and bellowed:

"John, I hear you've bought six thousand acres up in Township nine. Going to log it or hold it for investment?"

"It was a good buy," Cardigan had replied enigmatically; "so I thought I'd better take it at the price. I suppose Bryce will log it some day."

"Then I wish Bryce wasn't such a boy, John. See here, now, neighbor, I'll fess up. I took that money Pennington gave me for my Squaw creek timber and put it back into redwood in Township nine, slam-bang up against your holdings there. John, I'd build a mill on tidewater if you'd sell me a site, and I'd log my timber if—"

"I'll sell you a mill-site, Bill, and I won't stab you to the heart, either. Consider that settled."

"That's bully, John; but still, you only dispose of part of my troubles. There's twelve miles of logging-road to build to get my logs to the mill, and I haven't enough ready money to make the grade. Better throw in with me, John, and we'll build the road and operate it for our joint interest."

"I'll not throw in with you, Bill, at my time of life. I don't want to have the worry of building, maintaining, and operating twelve miles of private railroad. But I'll loan you—the money you need to build and equip the road. In return you are to shoulder all the grief and worry of the road and give me a ten-year contract at a dollar and a half per thousand feet, to haul my logs down to tidewater with your own. My minimum haul will be twenty-five million feet annually, and my maximum fifty million."

"Sold!" cried Henderson. And it was even so.

Bryce came out of his reverie. "And now?" he queried of his father.

"I mortgaged the San Hedrin timber in the south to buy the timber in the north, my son; then after I commenced logging in my new holdings, came several long, lean years of famine, the market dragged in the doldrums, and Bill Henderson died, and his boys got discouraged, and—"

A sudden flash of inspiration illuminated Bryce Cardigan's brain. "And they sold out to Colonel Pennington," he cried.

"Exactly. The Colonel took over my contract with Henderson's company along with the other assets, and

it was incumbent upon him, as assignee, to fulfill the contract. For the past two years the market for redwood has been most gratifying, and if I could only have gotten a maximum supply of logs over Pennington's road, I'd have worked out of the hole, but—"

"He manages to hold you to a minimum annual haul of twenty-five million feet, eh?"

John Cardigan nodded. "He claims he's short of rolling-stock—that wrecks and fires have embarrassed the road. He can always find excuses for failing to spot in logging trucks for Cardigan's logs."

"What does Colonel Pennington want, pard?"

"He wants," said John Cardigan slowly, "my Valley of the Giants and a right of way through my land from the valley to a log-dump on deep water."

"And you refused him?"

"Naturally. You know my ideas on that big timber." His old head sank low on his breast. "Folks call them Cardigan's redwoods now," he murmured. "Cardigan's redwoods—and Pennington would cut them! Oh, Bryce, the man hasn't a soul!"

"But I fail to see what the loss of Cardigan's redwoods has to do with the impending ruin of the Cardigan Redwood Lumber company," his son reminded him. "We have all the timber we want."

"My ten-year contract has but one more year to run, and recently I tried to get Pennington to renew it. He was very nice and sociable, but—he

"I'll Give That Man Pennington a Run for His Money."

named me a freight-rate for a renewal of the contract for five years, of three dollars per thousand feet. That rate is prohibitive and puts us out of business."

"Then," said Bryce calmly, "we'll shut the mill down when the logging contract expires, hold our timber as an investment, and live the simple life until we can sell it or a transcontinental road builds into Humboldt county and enables us to start up the mill again."

John Cardigan shook his head. "I'm mortgaged to the last penny," he confessed; "and Pennington has been buying Cardigan Redwood Lumber company first-mortgage bonds until he is in control of the issue. He'll buy in the San Hedrin timber at the foreclosure sale, and in order to get it back and save something for you out of the wreckage, I'll have to make an unprofitable trade with him. I'll have to give him my timber adjoining his north of Sequoia, together with my Valley of the Giants, in return for the San Hedrin timber, to which he'll have a sheriff's deed. But the mill, all my old employees, with their numerous dependents—gone, with you left hand-poor and without a dollar to pay your taxes. Smashed—like that!" And he drove his fist into the palm of his hand.

"Perhaps—but not without a fight," Bryce answered, although he knew their plight was well-nigh hopeless. "I'll give that man Pennington a run for his money, or I'll know the reason."

The telephone on the table beside him tinkled, and he took down the receiver and said "Hello!"

"Mersey!" came the sweet voice of Shirley Sumner over the wire. "Do you feel as savage as all that, Mr. Cardigan?"

These Pastors Look for More Women to Fill Vacant Pulpits

Left—Miss Ella J. Nash. Right—Miss Alice M. Whittier.

As a solution of the problem of the pastorless churches in the North Woods of Maine, Baptists have ordained two women ministers, and they are now serving in the pulpit of the picturesque little church at Jay, Maine. While other women evangelists are "helping out" at churches where ministers with large families have not been able to meet the rising cost on an average salary of \$1.87 a day, Miss Alice M. Whittier and Miss Ella J. Nash, so far as known, are the only Baptist female clergymen in the whole of New England.

They were ordained in 1917, when the war was making a heavy demand on the man power of Maine. Their first assignment was to the church at Jay, one of the oldest of the state, having a history that dates back 110 years, when the congregation met in a log house. As a rule Miss Whittier takes the morning service and Miss Nash has charge of the evening meeting.

Both were graduated from the Gordon Bible College in Boston, and both worked for a number of years afterward under the direction of the American Baptist Missionary Society. They have served the out of the way settlements in the far north Aroostook County and other sections of Maine, where the people depend on the colporteur for their gospel teaching. They have filled two pastorates of five years each, one at Owl's Head and the other at Jay, where they are at present stationed.

Will the woman pastor solve the problem of the shortage of ministers? Miss Whittier says she will. A woman gifted with the power of oratory, trained in a high class theological in-

stitution, and willing to make the combined sacrifices of not only a preacher's wife, but a preacher himself, should be allowed to fill a pulpit, she declares.

According to Miss Whittier, the woman preacher has come to stay. It is her opinion that very soon a large percentage of clergymen of all Protestant denominations will be women. The Baptists and the Congregationalists are among the first denominations to admit women to the ministry.

"Will women pastors be content to work on salaries that average less than \$700 a year, as men preachers have been doing for years?" is another question Miss Whittier answered.

She said they decidedly would not. "All over the country," she said, "people are realizing more and more the injustice that has been done to the ministers. The time has come, I believe, when pastors are to receive their just due. The country pastor's salary should not merely be raised—it should be doubled. He receives less than an ordinary day laborer and depends to an humiliating extent upon the charity of his congregation. No, women who enter the ministry will not be so patient. I'm sure. Conditions in America today do not warrant the practice of such self-denial."

Miss Whittier is one of the leaders in Maine of the New World Movement of Northern Baptists. That state has been asked to raise a quota of \$2,050,000. The amount didn't stagger the pastor of Jay.

"Will your congregation be able to come across with their apportionment?" she was asked.

"Certainly, there's no doubt about it," she said.

case, lack of funds to purchase equipment.

The commissioner, however, was so well impressed with the progress that the boys were making in their studies that he undertook to put a dozen of them in the government railway shops to study as machinists. Here the boys spent five years learning their trade and during that apprenticeship retained their membership in the mission church. This was the first step in the development of the industrial education idea. The next was the purchase of the sawmill.

Incidentally the Northern Baptist Convention has grasped the significance of Dr. Nichols' idea, and in its New World Movement program includes a project "to establish a trade school at Moumein and introduce education in the industrial arts, for industrial independence will make for the strength of Christian society in India as in America."

PLAN TO PAY SUNDAY SCHOOL TEACHERS NOW

Salaried Sunday School workers are favored by the New World Movement of Northern Baptists. In its campaign for \$100,000,000 between April 25 and May 2 the denomination plans to spend \$282,000 for 24 supervisors and organizers, 50 Bible workers in this country and 24 in Latin America, three specialists in Sunday school institutes, 12 specialists in young people's work, 10 state Sunday school directors and 50 highly trained Sunday school leaders. This is only the beginning of a change, which, a special survey committee reports, is "bound to be a slow process."

BAPTISTS FULLY ORGANIZED; WILL RAISE BIG FUND

Notable Men in 34 States Lead Churches in \$100,000,000 Drive.

IS TEST OF DENOMINATION.

New World Movement Gains Momentum—Where the Money Will Go.

By LUPTON WILKINSON.

The eyes of the Protestants everywhere will be directed toward Northern Baptists between Sunday, April 25, and Sunday, May 2.

The 10,666 churches constituting the Northern Baptist Convention—noted for independence of action—have fitted themselves with iron-clad unity into a temporary but none the less powerful machine. On May 2 the machine will cease to exist, but in the meantime it is expected to have raised the imposing sum of \$100,000,000.

Leaders say that probably never before have the laymen and laywomen of a denomination put their shoulders more completely to the wheel in a religious undertaking. In each of 34 states some man of marked ability has given his entire time for the past two months to the building of a campaign organization that reaches into every local church. The state directors include such men as ex-Governor Runyon of New Jersey, Smith G. Young, financier, of Lansing, Mich.; ex-Governor William W. Stickney of Vermont and Dr. John W. Bally, president of Colorado Women's College, Denver.

The lay organization extends down into each of 10,666 churches. D. C. Shull of Sioux City, Ia., president of the Northern Baptist Convention, summed up its challenge as follows:

"Those thousands of Baptists who learned the discipline and efficiency of planned campaigning while they were serving their country during the war can now apply that knowledge in the performance of the greatest task the Baptist denomination has ever faced as a unit. Thousands of others can bring their talents for use in a drive that will combine modernity of method with deep spiritual realization of a world in need."

"Surely it can be said with all reverence that no greater crisis has confronted evangelized Christians since those early days when, after the Ascension, a band of determined men set out on the initial effort to make faith in the Master worldwide."

The great momentum which the New World Movement of Northern Baptists has achieved is due to many men, but to those in touch with its progress two names stand out.

Dr. John Y. Aitchison, director of the General Board of Promotion of the Northern Baptist Convention, a man of unusual personal magnetism and winning character, has set the important campaign conferences on fire in every section of the country. Standing shoulder to shoulder with him is Dr. Frank W. Padelford, head of the Baptist Board of Education. Charged with the administration of 68 schools and colleges, Dr. Padelford nevertheless found time to write the survey on which the approaching campaign is based and is aiding heavily in the actual drive.

"The task before us," Dr. Aitchison said in a recent interview, "will stand or fall by one test. Are our people strong enough in their faith and vision to forget the old measurements of church giving? If they will realize the Christian crisis which exists, if they will hear the call of the whole world for help, and for the supreme soul-help of the Man of Galilee, there can be no possibility of holding back."

The proposed \$100,000,000 fund will be used for the expansion of forty Baptist schools and colleges in the United States; the enlargement of missionary activities in all foreign fields of the denomination; Christian Americanization work among "new citizens" in the United States; an adequate pensioning fund for missionaries and ministers and kindred purposes. Approximately three-fourths of the money will be spent in this country.

Northern Baptists Plan Huge Sum to Be Devoted to Schools and Colleges.

Although the Northern Baptists are planning practically to double the extent of their mission work in foreign fields during the next five years as a part of the New World Movement, more than three-quarters of the \$100,000,000 they purpose raising in a campaign from April 25 to May 2 will be spent on this side of the Atlantic.

The apportionment made shows \$76,191,929 will be spent in America, including \$30,010,000 for Baptist schools and colleges, and \$28,808,071 will be devoted to the foreign work of the denomination for the five-year period.

The amount allotted to both home and foreign work is far in excess of any previous expenditure of the denomination in a like period and the raising of the \$100,000,000 within a single week is regarded by the Northern Baptists as the greatest financial undertaking that they have ever entered upon. The \$100,000,000 budget includes only the general extension work of the denomination, generally classified as "benevolence" and does not include the budgets of the local churches. In 1918 the total estimated value of the church property of the churches included in the Northern Baptist Convention was \$114,817,300. The amount raised that year for church expenses and benevolence was \$17,351,524. Of this amount \$13,978,982 was for expenses and \$3,372,542 for benevolence. It will be seen that the \$100,000,000 which the Baptists are to raise this spring for their five-year program of benevolence means that the largest previous annual contribution of the church for that purpose will be multiplied nearly six-fold.

USES TELEGRAPH TO PREACH GOSPEL

The "telegraph preacher" is the unique title which has been given to Ramon of Managua, San Salvador. Ramon won this title from his use of the telegraph wire to reach fellow operators. Converted some years ago by an American Baptist woman missionary, Ramon became a railroad worker. He is station agent at Managua. In the quiet hours of the night he sits down to his key and ticks off gospel messages and an appeal which makes other operators ponder. He has a record of many conversions through his unusual methods. His wife, formerly owner of three "cantinas," or saloons, sold these because of her conversion. Extension of work in San Salvador and other Central American countries is provided in the New World Movement of Northern Baptists, which, between April 25 and May 2, will raise \$100,000,000 to finance its many activities.

TO SPEND MILLIONS FOR NEW BAPTIST CHURCHES

Plans for the New World Movement of Northern Baptists provide that 113 churches of that denomination will receive \$3,500,000 for new buildings and that 24 educational-social-religious centers will receive \$1,000,000 for additional modern equipment. All of this is included in the \$100,000,000 campaign which the denomination will carry on between April 25 and May 2. It is also planned to spend \$600,000 to clear up the debts of 37 churches. This program was held up during the war, along with all kinds of building activity, but the Edifice Department of the Northern Baptist Convention reports that \$725,000 was distributed among 29 churches to remove long-standing debts and to purchase property.

Model Tenements for China. Dr. C. A. Huntley, a Baptist missionary, recently returned from China, states that the American Baptist Foreign Mission Society will erect strictly rat-proof model tenements near Shanghai Baptist College in their fight against the disease-spreading rodent. All houses will be equipped with every modern hygienic and sanitary device.

PRESIDENT PRAISES HINES AS DISTRICT GENERAL

Railroad Chief to Resign About May 1—Assists in Selection of Successor.

By United Press.
Washington, April 24—President Wilson today wrote Walker D. Hines praising his services as director general of railroads. Hines is to leave his post sometime after the middle of May although his intention to resign is already known to President Wilson. Hines' successor, it was learned at the White House, has already been decided upon. It was stated that Hines himself picked a man.

The President's letter to Hines follows:

"I cannot let you retire from the duties as director general of railroads without telling you how I have personally valued and admired the quite unusual service you have rendered the government and the country. I hope that the future holds for you something worthy of your ability and character."

JACK HOXIE, MOVIE STAR, CHALLENGES JACK DEMPSEY

The Strong Man of Los Angeles Is Training For Fight With World's Champion

Jack Hoxie, the movie star, has issued a challenge to Jack Dempsey for the World's Heavyweight Championship. He has been training in Los Angeles for the past three months getting himself into physical condition to box Champion Jack Dempsey.

Jack Hoxie is playing the lead in a serial now being produced in Los Angeles and during his spare moments he keeps himself in perfect physical condition by sparring six-round bouts with his trainers. He is one of the cleverest men with the gloves in the moving picture colony in Los Angeles and his friends state that he is convinced that he can lick Jack Dempsey.

With everything in his favor including youth, strength and a wonderful constitution, Jack Hoxie has been preparing himself for a championship battle by fighting some of the heavy-weight fighters on the coast. He has also been preparing himself to withstand a beating by doing many clever stunts that are required of him in the filming of his serial picture, "Lightning Bryce." In this serial he is required to fall off a cliff, be dragged, tied to a run-away horse through the woods, beaten into insensibility by thugs and many of the other stunts that are usually seen in serials.

Jack Hoxie is a marvel of strength. He weighs one hundred and ninety-eight pounds stripped for action. He is well proportioned, has a long reach and a punch that some of the Los Angeles "Pugs" claim is superior to Jeffries when he was in his prime.

If Jack Dempsey accepts Jack Hoxie's challenge, there will be a ton of movie money placed on the young star.

FLOOD DAMAGE IN COUNTY IS HEAVY

(Continued from first page)

morning many streets were flooded and the current of the surface water cut small channels in the gravel. City councilmen have made an inspection of the damage done and some of them believe that a month or more will be required to get the streets back in normal condition.

The work may be delayed because of lack of labor. Efforts to employ men for the street department have resulted in only a slightly augmented force. It is impossible for the present force to complete all the emergency work at once. However, they are being directed to places which are in the worst condition so that traffic will not be inconvenienced any more than is absolutely necessary.

County authorities are also facing a help shortage in the repair of the roads. Most of the county hauling is done by farmers and they are exceptionally busy at this time of the year with their own work and cannot take their teams from the field. Much work devolves upon the maintenance department of the highway commission which is responsible for a considerable mileage in Jackson county. Parts of the main market highways are located in bottom

sections and were cut to pieces by the swift current in the flood water. The highway commission, employs its own forces, however, and will not face the difficulty that is encountered by county and city authorities in finding sufficient men to make the needed repairs immediately.

The Seymour Woolen Mills needs a few girls for weaving. Permanent position. Pay while learning and an opportunity to make good money. It will pay you to investigate. a5dtf

Mrs. Pearl Mitchell and children were in the city this morning enroute to Indianapolis after a visit with Silas McGatha and family, in Hamilton township.

Chauncey Lautzenheiser's experience as deputy makes him exceptionally well qualified for the office. a24d
